

COMMANDER PRO SC

460, 490

The Commander Pro is a top shelf, multipurpose vessel capable of almost any fishing pursuit. I've sold them to all corners of Australia for shallow water flats fishing in QLD, to wrestling with the mighty NT, fishing the frigid Alpine lakes in Tassie for trout and the close inshore reefs of NSW, I've seen them flying across "The" Bay in VIC, in SA they do just about all of the above, or in WA. punching the Freo Doctor.

The sharp entry and shallow draft and over all build strength will give you confidence in the few others offer. It's a simple fact - go the extra mile and you'll catch more fish. We have included standard features like the spacious casting deck with cavernous storage under, a massive main cockpit area, a solid simple uncluttered console, high transom and pod, rib for rib construction. Everything is Fronius pulse mited and everything is fully welded for strength and corrosion protection.

Life's short, catch more memories.
